FITTINGS

Diamant range fittings provide potable water supply engineers with the highest technology in terms of fitment **quality, safety and efficiency.**

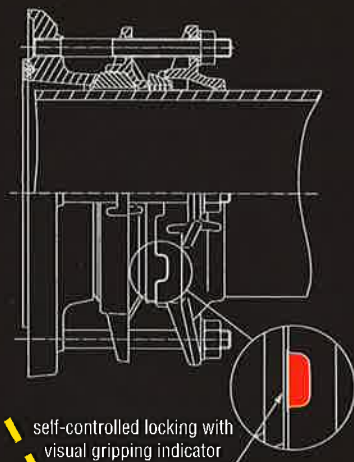

FULL RANGE
FROM 40 MM O.D.
UP TO 315 MM O.D.
WITH PN 10 AND
PN 16 FLANGES

SR5 SR6 FITTINGS

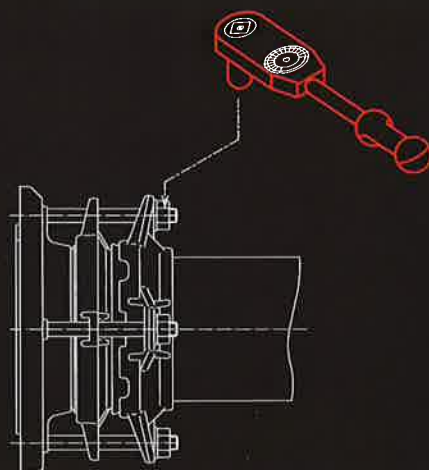

with full end load retention for
PE and uPVC potable water mains

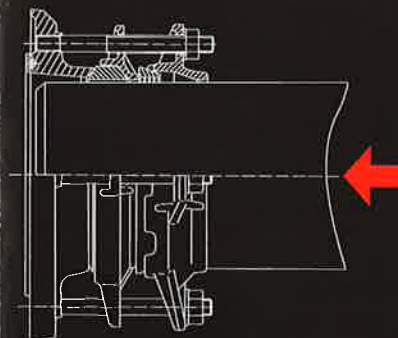

25 bar tested

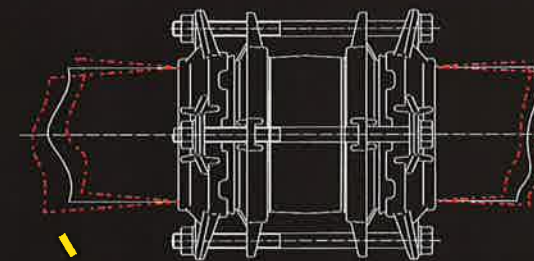

self-controlled locking with visual gripping indicator

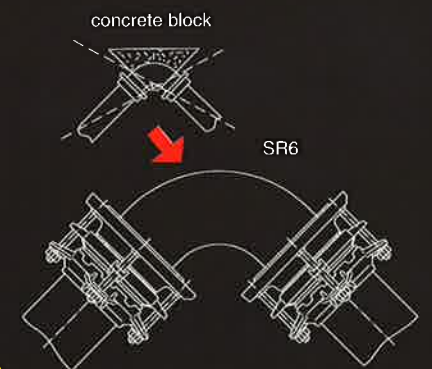

tightness indicator by tightening torque

ready assembled fittings with deep fitment without specific tools

angularity up to 6°

end load retention capacity allowing installations without concrete block. 20 bar for PEHD, 25 bar for uPVC

higher safety

simple and economical fitment
